Alexandria, VA 22313-1450

Dear Sir:

This is Applicants' response to the Office Action mailed June 22, 2006, requiring an election of species in the above-identified application.

Applicants hereby elect the species of claim 8 without traverse. Claims 1-8, 10-12, and 14-15 are believed to read on this species (with respect to claims 11 and 12, note the ionic radii and valence states shown for the components of the elected species in Table I at page 8 of the application). Further, Applicants note that this election of species becomes binding only in the event that no generic claim is found to be allowable.

Respectfully submitted,

Paul L. Marshall
